

Mia'Zadai Navarro

Clearance Level(TS//SCI/TK)

Irvine, CA | miazadai.navarro@gmail.com | [linkedin.com/in/miazadai-navarro/](https://www.linkedin.com/in/miazadai-navarro/)

EDUCATION

University of California, Irvine

Bachelor of Science, Biomedical Engineering

Sept 2024 - Expected June 2028

PROFESSIONAL EXPERIENCE

B. Braun Medical | Quality Engineering Intern

Jun 2026 - Present

- Executed IQ/OQ/PQ/PPQ protocols to validate a new material for production-line introduction.
- Analyzed production and validation data for PRR trends and built an Excel macro that reduced Pareto chart generation from 1-3 business days to 1 minute (>99.8% reduction).
- Worked cross-functionally across engineering, quality, manufacturing, and production while supporting SOP updates for material qualification.

Rehabilitation and Augmentation Laboratory | Research Assistant

Jan 2026 - Present

- Conduct human-subject proprioception experiments using Vicon motion capture, an instrumented treadmill, EMG, and force plates.
- Revised participant procedures across multiple visual and motor conditions.
- Process gait and perception data in Vicon Nexus and MATLAB; support experimental design and research figures.

Kupu Place | Mechanical Engineering Intern

Jun 2024 - Jul 2024

- Designed and machined a radial-flow system in Onshape, supporting 200% more lettuce heads/week.
- Built an \$886 filtration system vs. a \$4,747 commercial option, saving \$3,861.

National Security Agency | Software Development Intern

Aug 2023 - May 2024

- Co-developed HTML/JavaScript/SQL reporting portal for 200+ users with role-based access and logs.
 - Coordinated client requirements and delivery timelines for the reporting system.
-

PROJECTS

Robotic Quality Control Arm | Mechanical Designer and Programmer

Dec 2025 - Present

- Designed a 3D-printed end effector for a 6-DOF sorting arm; programmed Arduino controls in C++ and troubleshoot hardware/software integration.
- Sourced image datasets and supported AI/computer-vision testing to verify automated banana classification and sorting.

Published Anatomical Plastination Research Paper | 3D Modeler

Jun 2025 - May 2026

- Captured image sets and reconstructed photogrammetry models using RealityCapture and ZBrush.
 - Developed a new ZBrush end-cap workflow and contributed models to a published modeling paper.
-

LEADERSHIP

Engineering without Borders UCI Chapter | Vice President

Feb 2025 - Present

- Built the organization's first annual budget and financial system, creating structure for tracking, planning, and long-term funding. Developed a funding pipeline for all subteams to request resources and support grant applications.
-

TECHNICAL SKILLS: SolidWorks (CSWA), RealityCapture, ZBrush, CNC Machining, Lathes, MATLAB (OnRamp), Python, C/C++, JavaScript, HTML, SQL, Excel VBA
